A Edwin
Senior IFS Technical Consultant
alfred.edwin@hotmail.co.uk

PROFILE

FBSc (Hons) Computer Science Graduand with hands-on experience across the MERN stack, including two full-stack projects covering front-end and back-end development, plus a mobile app built with Flutter and Dart. Also experienced with Figma for wireframing and prototyping, and have basic working knowledge of PHP and MySQL. Looking for an entry-level IT role where I can apply my technical skills to real projects and continue growing as a developer.

EDUCATION

B.Sc (Hons) in Computer Science(2026)
University of Bedfordshire (Affiliated with SCU)

Higher National Diploma in Information Technology(2025)
Sliit City Uni

Professional Certificate in Digital Graphic Designing (2023)
IIT Campus

GCE Ordinary Level (2019) & GCE Advanced Level (2022)
Methodist College

ACADEMIC PROJECTS

Student Record Management System (Node.js)
Developed a web app using Node.js backend with Bootstrap, jQuery, and AJAX for a dynamic, responsive interface.

E-commerce Website & Game using Heart API (PHP)
Built an e-commerce site and a game using PHP backend on XAMPP server with HTML, CSS, and JavaScript for frontend. Used Heart API for the game(Love Bomb)

Figma - Wireframe
Designed a Figma wireframe and interactive prototype for an improved version of the university student portal, focusing on user-friendly interfaces and responsive layout design.

Bathco Website & Moses Stores Website – Client Project (React.js and MongoDB)
Developed a full-stack website for Bathco International, a bathware and tiles retail business, using React.js, Node.js, Express.js, and MongoDB. The system included both customer-facing and admin functionalities.

ResQMap – Search & Rescue Coordination App (Flutter & Dart)
Developed a mobile app that tracks search party members' trails in real time and alerts the whole group with the exact location once a missing person is found, using only participants' phones, at zero cost. Built to support local, community-led search and rescue efforts.
